

Cookies Policy

In compliance with the regulations, CALIZA IBIZA, S. A. (IBIZA GRAN HOTEL) provides the users all relevant information regarding the cookies it uses and the reason for their use, and also requests their consent for using them.

Cookies are a tool used by web servers for storing and recovering information about its visitors. They are small text files we send to the user's computer for keeping a register of his or her preferences and remembering them for future visits.

IBIZA GRAN HOTEL uses cookies to facilitate navigation on its website and to obtain a higher efficiency and personalization of the services offered to the Users. The used cookies allow for a larger storage of information on the User's preference and language, in order to be able to show the User contents and offers that may interest him or her in accordance with his or her profile and register the number of time a User has been shown a certain message (generally, Website novelties).

Some cookies are assigned to your PC only for the duration of your visit to our website; these are known as "session cookies" and they automatically disappear after closing your browser. IBIZA GRAN HOTEL does not use persistent cookies.

The User can freely decide whether he wants the used cookies to be implanted into his hard drive or not. In this sense, the User may configure his browser to accept or reject by default all cookies or to receive a warning on the screen when receiving each cookie and decide, in that moment, if he wishes it to be implanted or not into his hard drive.

Given that the cookies we use are general for all users of IBIZA GRAN HOTEL, if you wish to modify them you will have to manage the cookies through the tools provided by your browser.

Cookies are essential for the internet to work, for they provide countless advantages to the provision of interactive services. However, the shared use of these cookies among different website has sounded a social alarm in the context of personalized advertisements. This document will help you understand the different levels of security associated with the cookies we use, as well as the circumstances under which we request your prior permission as a condition for their storage.

* Technical cookies: They are those that allow the user to navigate a website, platform or application and use the different options or services that exist within it.

* Personalization cookies: They are those that allow the user to access the service with some characteristics or a general nature that are predefined depending on a series of criteria in the user's terminal.

* Analysis cookies: They are those that allow the following and analysis of the behavior of the users of the websites to which they are linked. The information gathered with this type of cookies is used to measure the activity of the website, application or platform and to elaborate navigation profiles of the users of the aforementioned site, application and platform, in order to introduce improvements depending on the analysis of the usage data of the service's users.
