

# COOKIE POLICY

We use cookies to make improvements, analyse connections and display advertising. By continuing, you accept their use.

## COOKIE POLICY AND LOCAL STORAGE

### Cookie Policy:

In accordance with the Information Society and Electronic Commerce Services Act 34/2002, of 11 July, we hereby notify you that this website uses Cookies to improve and optimise users' experience. Below, you will find detailed information about what Cookies are, the types used on this website, how to change your cookie settings, and what happens if you disable them.

### What are cookies?

Cookies are files that are downloaded to your computer when you access certain websites. Among other things, cookies enable information about users' browsing habits and their computer to be stored and retrieved and, depending on the information they contain and the way in which they use their computer, can be used to recognise the user.

What types of cookies does this website use?

- **Analytics cookies:** Cookies that are processed either by us or third parties and which enable us to quantify the number of users and perform statistical measurement and analysis of how users use our service. To do this, we analyse browsing behaviour on our website in order to improve the range of products or services we offer.

- **Advertising cookies:** These are processed either by us or by third parties and enable us to manage in the most efficient way possible the website's advertising spaces, and adapt the content of the advertisement to the content of the service requested or to the way in which our website is used. They enable us to analyse your internet browsing habits and show you advertising that is related to your browsing profile.

Name of Cookie	Description/Purpose	Provider	Expiration
PHPSESSID	This cookie is used by encrypted language PHP to allow SESSION variables to be stored on the web server. These cookies are essential for the functioning of the website.	ibizagranhotel.com	Session
WPML	This allows us to identify the user's language so that we can display the website in the correct language. Cookies used: "_icl_current_language", "_icl_visitor_lang_js", "wpml_referer_url", "wpml_browser_redirect_test".	WPML	1 day

_utma	This cookie is used to identify unique visitors by assigning a unique visitor ID. It tracks the number of times you have visited this Site and your first and last visits.	Google Analytics	2 years
_utmz	This cookie is used to identify a web session and store session information. It helps calculate the length of a visit by collecting a time stamp from the exact moment they leave this Site.	Google Analytics	N/A
_utmc	This cookie is used to store campaign information. It tracks where the user came from, which search engine they used, which link they clicked on, which keywords they used, and the location from where it was accessed.	Google Analytics	6 months from the date it is set up
_ga	This cookie is from Google Analytics. It is used to collect information about how visitors use the website. These cookies collect information anonymously, including the number of users of the site, the most visited content, and so on.	Google Analytics	2 years

- **Third-party cookies:** Provided by third parties.

### What happens if Cookies are disabled?

Some features of the Services and areas of this website may not function properly if cookies are disabled.

### Do we update our Cookie Policy?

We may update the Cookie Policy on our website, so we recommend that you review this policy each time you visit the site so that you are properly informed about how and why we use cookies.

### How can you configure your Cookies?

By browsing and continuing to use our website, you consent to the use of Cookies under the terms and conditions set out in this Cookies Policy. As a user, you have the option to exercise your right to block, delete and reject the use of Cookies at any time by changing your browser options. For example:

- **Microsoft Edge:** Settings> Advanced Settings> Cookies.

Please see [Microsoft support](#) or the help section of the browser.

- **Mozilla Firefox:** Tools> Options> Privacy> History> Custom Settings.

Please see [Mozilla support](#) or the help section of the browser.

- **Google Chrome:** Settings> Show advanced options > Privacy> Content settings.

Please see [Google support](#) or the help section of the browser.

- **Safari (Apple):** Preferences> Security.

Please see [Apple support](#) or the help section of the browser.

- **Opera (Opera Software):** Settings > Options > Advanced > Cookies

Please see [Opera support](#) or the help section of the browser.

If you use any other browser, please refer to their policy on cookie installation, use, and blocking. However, by using the [www.youronlinechoices.com](http://www.youronlinechoices.com) tool, you can find useful information and set your cookie preferences, provider by provider.

### **Are only cookies stored?**

There may be websites that use other forms of storage similar to cookies but with more capacity, such as other forms of data stored locally on the customer's computer. These might include:

- LocalStorage and HTML5 sessionStorage: an area that the website is able to use on the user's computer. Normally the user's browsing history can be deleted.
- Flash "Local Shared Objects" (Silverlight isolated storage). These are stored in the Microsoft folder where the user profile is stored. You need to go into the folder and delete it (for example Vimeo videos).
- Flash is used to incorporate multimedia features into a website and to do so, it stores files on the user's computer.
- A web beacon tracks your activity, inserting a mini-image that you don't even notice. When you browse the website, it is loaded along with the webpage, and the server from which the photo is downloaded records the time of access, or the number of times you have accessed it.

These files are more intrusive than cookies, as it is more complicated to delete them. They also store more information, and are independent of any browser you use. We do not use this type of storage.
