Welcome to Open Spa: A gentle return to balance

Serenity is one of the most powerful remedies for modern life's often frenetic pace —even when that life is lived in Ibiza. At Open Spa, our purpose is simple: to create the space, ambience, and treatments you need to feel both renewed and deeply restored, while creating unique moments when the outside world falls away, and all that remains is you—at ease, unhurried, and at one with yourself.

Water, our body's most liberating habitat

Since ancient times, water has been used to restore balance, vitality, and calm. At Open Spa, it becomes your element of release and renewal.

This space is dedicated to the sensory power of water in all its forms-warming, cooling, flowing and still.

Discover a circuit designed to awaken and soothe: heated whirlpool baths, contrast pools, an icy plunge, hammam, sauna, aroma and contrast showers, and a quiet relaxation area with heated loungers.

Access to Aqua is included when you book any Open Spa massage or treatment.

Our Rituals: Care becomes quiet ceremony

Two gentle curative choreographies of warmth, skilled hands
and stillness-restoring not just the body, but the self.

What A full-body journey of deep relaxation, renewal, and radiant nourishment—designed to cocoon you in care and celebrate your inner and outer beauty. A body exfoliation, a facial treatment and a relaxing massage.

How The ritual begins with an application of warm, soft blankets and a sense of stillness. A revitalizing marine exfoliation prepares the skin, followed by the gentle heat of herbal pouches to release tension and soothe the senses. A flowing full-body massage with aromatic oil restores ease, and the experience concludes with a luminous facial to nourish and brighten the skin. A multisensory voyage of textures, scents, and quiet attention—returning your body and mind to harmony.

What A targeted ritual designed to release your muscular tension, calm the nervous system, and bring full-body and mind renewal.

How We begin with a deeply therapeutic massage focused on tension relief and muscular recovery, followed by a refreshing balm applied to the back. Muscles are lengthened, softened, and soothed with expert hands. The ritual continues with a lifting effect facial massage and a cervicocranial massage—quieting the mind and awakening a profound sense of rest. Ideal for recovery, release, and reconnection. A cold balm is applied to help relax muscle tension.
